

## 20. WILAMPA TRAIL

### Terrain: Moderate

**Distance: 7.0 km circuit**

Suitable for walkers, cyclists and horse riders, this multi-use loop trail recognises traditional owners, the Kurna people. The name 'Wilampa' comes from Kurna language meaning 'black cockatoo with yellow or white feathers', in recognition of the endangered yellow-tailed black cockatoo known to inhabit the forest and feed on the seeds of pinecones. Starting at gate BF12 off Bedlam Flat Road, the trail traverses a network of fire tracks through pine plantation and a mixture of hardwood species. Sections of the trail follow the creek line and pass the Second Valley Forest depot and historic sheep yards. Access further information at:
